## GignoSystem Japan The debut of a new game for “Tokusuru-Tsuika Games: Get More! Multiplying Games” the EZweb official and Brew (R) compatible game site

On Thursday, August 4, 2005, GignoSystem Japan, Inc. (HQ in Chiyoda-ku, Tokyo, President & CEO: Keiko Iida) will launch delivery of a new BREW (R) application game “**Nightmare Whole Sky**”, in its EZweb official and original game site, “**Tokusuru-Tsuika Games: Get More! Multiplying Games**”.

“Nightmare Whole Sky” is a role playing game with an exciting action element and bewitchingly beautiful graphics; the stage for the story is set in the present day with a dark and compelling worldview.

### <Story>

Judgeman Raker – a man enslaved by the powers of darkness, offered his wife and daughter as a sacrifice and was transmuted into a mad god. Jin Raker – his son and former apprentice in the black arts of sorcery had also received a gift from the powers of darkness – his hand took the form of a deformed claw known as the “Treasure Key”. Now he must prevent his father from creating the ultimate evil, the Satanic Gate of the Underworld that captures any living creature and deforms into monstrous creature, Jin undertakes an epic journey solely into the heart of darkness.

### <System>

- Automatic generation of a dungeon: in this game, the Satanic Gate of the Underworld refers to a labyrinth linked to another dimension; in a dungeon with an automatic generation system, a different route is created at every entrance, ensuring the player becomes ensnared and hopelessly lost.
- Making enchanted weapons: the key to winning this game is to create a great variety of

enchanted weapons, which would enable powerful and dangerous sorceries, by using tools and weapons gained in the Dark Market or after defeating enemy monsters. However, when such enchanted weapons are used, they consume a large amount of MP; to win in battle, a player must learn to use them skillfully according to circumstances, along with ordinary weapons that have differing attack ranges.

(About GignoSystem Japan)

GignoSystem was founded in 1996 as a company engaged in the development of internet-based systems. The Company now offers a range of paid information services for use with NTT DoCoMo, KDDI and Vodafone mobile phones. The Company has also extended activities overseas, offering paid services for mobile phones used in 11 countries and 8 languages. Apart from paid information services, GignoSystem is also actively engaged in other businesses areas such as e-commerce. In October 2004, GignoSystem formed a capital alliance with TOKYO FM, a key broadcaster on the FM network with 38 stations across the country, and aims to create new business out of the fusion of broadcasting and communications.
