Our new game, “**Maria and Lillis...Order and Chaos**” is a romantic simulation game set against the background of the elections for the student council of a school.

The graphics and worldview are as aesthetic and splendid as the game.

Maria, dignified and elegant personifies the rule of law and is the antithesis of the daring Lillis, a freedom loving girl intent on living a wild life with no inhibitions... Depending on the mood and feelings of the player and which girl they favor, the world is ever changing, in the ebb and flow of chaos and order.
