GignoSystem Japan
The debut of a new game “Be Cool with playing Slot Games this summer” for “ Tokusuru-Tsuika Games: Get More! Multiplying Games”;
the EZweb official and BREW^(R) compatible game site

On Thursday, September 29, 2005, GignoSystem Japan, Inc (HQ in Chiyoda-ku, Tokyo, President & CEO: Keiko Iida) will launch delivery of a new BREW^(R) application game “Be Cool with playing Slot Games this summer”, in its EZweb official and original game site, “ Tokusuru-Tsuika Games: Get More! Multiplying Games”.

“Be Cool with playing Slot Games this summer” is a romantic simulation game with a comic touch. The hero, who does not have much luck with girls, buys an unusual “confession slot” device by mail order, and using this, is determined to get a girlfriend before the fireworks festival.

Unlike former romantic simulation games, this game does not involve the user choosing from various options. Instead it operates by a unique system whereby the user selects dialogue that is produced by the rotating slot machine.

The pickup lines that come out of the slot are all strange and depending on their combination, may become pretty incomprehensible. Therefore it is amusing to play as a word game, as well as for romance with the female character.

The game can be enjoyed over and over again because the user can keep changing the words in the “confession slot”, and it contains several different romantic events for each love-interest character, and also hidden love-interest characters who appear if certain conditions are met.
