GignoSystem Japan Launch of “3D Dungeon Battle” on the “Tokusuru-Tsuika Games: Get More! Multiplying Games” Site Compatible with EZweb Brew^(R)!

On Thursday, October 20, 2005, GignoSystem Japan, Inc. (HQ: Chiyoda-ku, Tokyo; President & CEO: Keiko Iida) began providing the new game “3D Dungeon Battle” on the official site “Tokusuru-Tsuika Games: Get More! Multiplying Games” which is compatible with EZweb BREW^(R).

“3D Dungeon Battle” is an action RPG where players go on a quest through 3D ruins from the player's perspective.

This is the first 3D game to be provided on this site.

The game progresses in realtime, and the player never knows when or from where an attack will take place while they are on their quest through the 3D ruins. This game has various features to make the battles more exciting. For example, there are “Alertness Guages (Points),” which can allow the player to advance to a higher status temporarily if they continue defeating the enemies. There are also “Magic Shortcuts,” which allow players to use registered magic charms at any time.

There are various traps in the dungeon (labyrinth ruins) in addition to monsters.

Ex.) Rotating floors, poisoned floors, pitfalls, invisible walls, and secret doors.

There are multiple traps that must be negotiated before moving on to the next level, making it like a problem solving game.

(About GignoSystem Japan)

GignoSystem was founded in 1996 as a company engaged in the development of internet-based systems. The Company now offers a range of paid information services for use with NTT DoCoMo, KDDI and Vodafone mobile phones. The Company has also extended activities overseas, offering paid services for mobile phones used in 11 countries and 8 languages. Apart from paid information services, GignoSystem is also actively engaged in other businesses areas such as e-commerce. In October 2004, GignoSystem formed a capital alliance with TOKYO FM, a key broadcaster on the FM network with 38 stations across the country, and aims to create new business out of the fusion of broadcasting and communications.
