GignoSystem Japan Launch of ToruCa compatible service through two DoCoMo i-mode official sites

GignoSystem Japan, Inc. (HQ in Chiyoda-ku, Tokyo, President & CEO: Keiko Iida) will launch a service introducing “ToruCa”, a new service for Osaifu-Keitai, through i-mode official sites ‘Nekomanga Inumanga’ and ‘Machiukemelo & Orgel’ simultaneously with the launch of ToruCa compatible mobile phones.

ToruCa is a function that enables users to retrieve information from papers, such as coupon tickets and shop information, by passing their mobile phones in front of the reader/writers.

It is also possible to obtain information through ToruCa by downloading it from i-mode sites to the mobile phones, instead of passing them in front of the reader/writers.

The information obtained can be organized by using the search/sort function of the handset, and be exchanged among compatible mobile phones via e-mail. (Excerpt from NTT DoCoMo press release, September 14, 2005)

<Machiukemelo & Orgel> Details of ToruCa service

ToruCa will be distributed through the “Machiukemelo & Orgel” site.

You can download soothing orgel ringing melodies and special screensavers for free by obtaining ToruCa (details).

<Nekomanga Inumanga> Details of ToruCa service

ToruCa will be distributed through the “Nekomanga Inumanga” site.

You can read the much-loved Cats & Dogs column three times consecutively through ToruCa (details), and you can also get an exclusive screensaver, not available through the normal website, by accessing the download link of ToruCa.

What’s more, there will be another special project in which you can download an exclusive screensaver no where else available, by collecting all three of the ToruCas!

(About GignoSystem Japan)

GignoSystem was founded in 1996 as a company engaged in the development of internet-based systems. The Company now offers a range of paid information services for use with NTT DoCoMo, KDDI and Vodafone mobile phones. The Company has also extended activities overseas, offering paid services for mobile phones used in 11 countries and 8 languages. Apart from paid information services, GignoSystem is also actively engaged in other businesses areas such as e-commerce. In October 2004, GignoSystem formed a capital alliance with TOKYO FM, a key broadcaster on the FM network with 38 stations across the country, and aims to create new business out of the fusion of broadcasting and communications.
