## GignoSystem Japan Launch of New Official GPS function Compatible Fortune-Telling Site, “Useful Fortunes” for EZweb Official site

On Thursday, December 1, 2005, GignoSystem Japan, Inc. (HQ: Chiyoda-ku, Tokyo; President & CEO: Keiko Iida) launched “Useful Fortunes” a new official fortune-telling site for EZweb.

“Useful Fortunes” is designed as a fortune telling site that can be used by men and women of various age groups everyday. This fortune telling site is planned and administrated by a collaboration between GignoSystem Japan and PRO\*House Co., Ltd., which administers many major fortune telling sites.

The fortunetellers are Gensyu Seikando, Hokutoheji, and Maggie. Different methods of fortune telling are used such as western astrology, Tonkousuimei, Rikujin, tarrot cards, runes, and Kimontonko.

This makes it possible to choose the method of fortune telling that you prefer each time.

The contents of the fortunes include basic fortunes such as romance and annual fortunes, as well as other original fortunes in “Useful Fortunes” such as “Free Liar Detection,” which can determine whether or not a person is lying to you.

“Lucky Directions for Going Out, ” which uses a mobile GPS function, is especially practical for both your work and leisure time. For example, you can determine good or bad luck at you departure and destination points, or you can determine which direction will bring you good luck on that day.

(About GignoSystem Japan)

GignoSystem was founded in 1996 as a company engaged in the development of internet-based systems. The Company now offers a range of paid information services for use with NTT DoCoMo, KDDI and Vodafone mobile phones. The Company has also extended activities overseas, offering paid services for mobile phones used in 11 countries and 8 languages. Apart from paid information services, GignoSystem is also actively engaged in other businesses areas such as e-commerce. In October 2004, GignoSystem formed a capital alliance with TOKYO FM, a key broadcaster on the FM network with 38 stations across the country, and aims to create new business out of the fusion of broadcasting and communications.
