On Thursday, June 14, 2007, GignoSystem Japan, Inc. (headquartered in Chiyoda Ward, Tokyo, President & CEO Keiko Iida) started its distribution of “Mystic Gate” on official EZweb BREW(R) compatible game site “Tokusuru-Tsuika Games (Get More! Multiplying Games).”

“Mystic Gate” is a simulation RPG giving players flexibility in moving forward in the game. As players travel on the maps in the game, the storyline evolves.

When players come close to a map with an event, the storyline moves forward. But when to approach to the map is up to players.

Also, there are free dungeons and in their maps the storyline does not progress.

Additionally, this game has no concept of level setting! The game allows players to freely set their own empirical data.

And, players can adopt the job system to acquire special skills for each job.

How to grow characters is in the players' hands.

< Game Story >

An eerie black mist hovers over Mirus.

The mist with demons strikes villagers one after another and seizes the village....
